

MILK STRAW

Large Size
Oral Syringe

Enfamil
Bottle

← Why won't
this work?

The new bottle
shape →

A large size syringe
cannot fit in the
new bottle to draw
up the milk

The Answer:
"The Ameritus
Milk Straw"

Part#:
AEG-STRAW
(100/box)

THE SYSTEM:

The Milk straw allows you to draw up milk using a large size oral syringe from the new shaped Enfamil bottle with ease and eliminates making a mess or having to transfer the milk to another container. To order the Ameritus Milk Straw call (800)825-5996!
